What is this product?

Type

This product is a standard foreign collective investment fund having the legal form of a joint-stock company and it is a UCITS fund under the UCITS Directive. SFDR product category: Article 8

Term

The Fund is established for an unlimited term.

Objectives

- The Fund aims to appreciate its assets in the long term through investment in a diversified portfolio of transferable securities.
- To achieve its objective the Fund invests primarily in equity securities of companies which operate anywhere in the world and which have in the opinion of Generali Investments CEE a significant position on the market, comparative advantages over its competition and share price resiliency towards market turmoil.
- The Fund may also additionally invest in open-ended collective investment schemes and exchange-traded funds which hold a range of equities (e.g. shares).
- The Fund may hold ancillary liquid assets and may also invest in transferable money market instruments (which are securities with high liquidity and short maturities) which include for example deposits with banks and short-term debt instruments.
- The Fund will use a limited number of derivative instruments such as swaps and forwards for non-complex efficient portfolio management and hedging. Hedging is a currency transaction which aims to protect against exchange rate movements.
- Generali Investments CEE has full discretion in selecting the Fund's assets. The Fund does not have any particular target in relation to any industrial, geographic or other market sectors.
- All gains will be reinvested and it is not intended to declare dividends.
- The base currency of this Fund is EUR. This share class currency is PLN and it is fully hedged into EUR.
- You can subscribe for and redeem shares of the Fund on each business day in Ireland and the Czech Republic on which banks are open for business or such other days as may be determined by the Directors and notified to shareholders. The latest prices of shares and other information can be obtained at www.generali-invest-cee.eu/en/.
- Portfolio transaction costs will have a material impact on performance.
- The Fund is actively managed and is not managed with reference to a benchmark index.
- Depository of the Fund is SOCIÉTÉ GÉNÉRALE S.A., DUBLIN BRANCH, IFSC House, International Financial Services Centre, Dublin 1, Ireland.
- Full list of risks related to the Fund (including sustainability risks) is available in section “Risk Factors” of the Prospectus and the Fund Supplement; and for further information, please see the “Investment Objective” and “Investment Policy” sections of the Fund Supplement.
- Other practical information on the Fund including the Prospectus, latest annual report and semi-annual periodic reports are available free of charge in English on the website www.generali-invest-cee.eu/en/; upon request in the corporate seat of Generali Investments CEE, investiční společnost, a.s., Na Pankráci 1720/123, 140 21 Prague 4 and by distributors.

Intended retail investor

The Fund is designated for standard investors. Considering the manner of investments, this product is appropriate for investors with advanced knowledge and their own experience in investments. This Fund is not necessarily appropriate for investors who intend to get back the money they invested in a period shorter than the Recommended Holding Period (“RHP”) as stated in the section titled “How long should I hold it and can I take money out early?”

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 8 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions are very unlikely to impact the capacity to pay you.

Risks materially relevant to the Fund which are not adequately captured by the indicator are: derivative, settlement, concentration.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If Generali Investments CEE is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 13 years. Markets could develop very differently in the future.

Recommended holding period: 8 years

Example Investment: 47,000 PLN

Scenarios

If you exit after 1 year

If you exit after 8 years (RHP)

What happens if Generali Investments CEE is unable to pay out?

The assets in the Fund are separated from the assets of Generali Investments CEE and of any other funds in both legal and accounting terms. The reasons to dissolve the Fund are specified in the Fund's Prospectus. No obligations between you and the Fund or Generali Investments CEE are covered under a system of indemnifications or guarantees for investors and you might suffer a financial loss. If you believe that Generali Investments CEE acted in conflict with the applicable laws while purchasing investment shares or distributing shares, you may file a complaint. You may also turn to the CNB or exercise your rights by filing a complaint with the court of jurisdiction.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- PLN 47,000 is invested.

	If you exit after 1 year	If you exit after 8 years (RHP)
Total costs PLN	3,682 PLN	17,772 PLN
Annual cost impact (*)	7.8%	3.9% per year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.6% before costs and 6.6% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year

How long should I hold it and can I take money out early?

Recommended holding period: 8 years

RHP is based on the underlying assets of the Fund. The securities of the product are purchased on every business day, being a business day in Ireland and in the Czech Republic, at current value determined by General Investments CEE in accordance with the applicable supplement to the Prospectus and no exit fees are charged. The actual risk might differ if you decide to terminate the investment before the recommended maturity and you might get back less.
