What is this product?

Type

This product is a standard foreign collective investment fund having the legal form of a joint-stock company and it is a UCITS fund under the UCITS Directive. SFDR product category: Article 6

Term

The Fund is established for an unlimited term.

Objectives

- The Fund aims to achieve long-term capital appreciation typically primarily via investments into equities and equity-related securities. A tactical asset allocation approach (which is an active portfolio management strategy) helps to mitigate downside risk (i.e. a security's potential to suffer a decline in its value if the market environment changes or goes in the wrong direction which has a negative impact on valuation of the asset held) during adverse market cycles and entails investing in traditional asset classes.
- The Fund may gain exposure (directly through investments in securities, open-ended collective investment schemes which may be leveraged and/or unleveraged, or through the use of derivatives and other financial instruments) to varying combinations of asset classes, including but not limited to, up to 100 % of Net Asset Value in: bonds with fixed and/or floating rate and rated above or below investment grade or unrated and other debt securities (e.g. notes, treasury inflation-protected securities, asset-backed and mortgage-backed securities) issued or guaranteed by governments, government agencies or associated entities, supranational or public international organisations or by corporations or financial institutions worldwide; equities and equity related securities; securities, which gain exposure to commodities and commodity indices; in cash and ancillary liquid assets such as transferable money market instruments. The Fund may invest significantly in financial derivative instruments (using a combination of long and short positions) for investment, efficient portfolio management and hedging purposes (e.g. to reduce currency risk) at any one time. Fund assets may be in different currencies and, in order to achieve the investment objective, the fund may or may not use techniques to reduce the exposure to currency and the resulting risk.
- Generali Investments CEE has full discretion in selecting the Fund's assets and may allocate its investments among asset classes in any fixed proportion, which asset classes and overall portfolio parameters may significantly change over time. Typically, the Fund will invest at least half of its assets in equities and equity related securities (such as preference shares, American Depositary Receipts, Global Depositary Receipts) and collective investment schemes based on equities. The Fund is not limited by any investment style or by the issuer's location, size, market capitalization, economic sector or rating.
- All gains will be reinvested and it is not intended to declare dividends in respect of this share class. Dividends may be paid out of capital in respect of other share classes in the Fund.
- You can subscribe for and redeem shares of the Fund on each business day in Ireland and the Czech Republic on which banks are open for business or such other days as may be determined by the Directors and notified to shareholders. The latest prices of shares and other information can be obtained at www.generali-invest-cee.eu/en/.
- Portfolio transaction costs will have a material impact on performance.
- The Fund is actively managed and is not managed with reference to a benchmark index.
- Depository of the Fund is SOCIÉTÉ GÉNÉRALE S.A., DUBLIN BRANCH, IFSC House, International Financial Services Centre, Dublin 1, Ireland.
- Full list of risks related to the Fund is available in section “Risk Factors” of the Prospectus and the Fund Supplement; and for further information, please see the “Investment Objective” and “Investment Policy” sections of the Fund Supplement.
- Other practical information on the Fund including the Prospectus, latest annual report and semi-annual periodic reports are available free of charge in English on the website www.generali-invest-cee.eu/en/; upon request in the corporate seat of Generali Investments CEE, investiční společnost, a.s., Na Pankráci 1720/123, 140 21 Prague 4 and by distributors.

Intended retail investor

The Fund is designated for standard investors. Considering the manner of investments, this product is appropriate for investors with advanced knowledge and their own experience in investments. This Fund is not necessarily appropriate for investors who intend to get back the money they invested in a period shorter than the Recommended Holding Period (“RHP”) as stated in the section titled “How long should I hold it and can I take money out early?”

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 8 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions are very unlikely to impact the capacity to pay you.

Risks materially relevant to the Fund which are not adequately captured by the indicator are: derivative, settlement, concentration.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If Generali Investments CEE is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 13 years. Markets could develop very differently in the future.

Recommended holding period: 8 years

Example Investment: 10,000 EUR Scenarios

If you exit after 1 year

If you exit after 8 years (RHP)

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	2,300 EUR	1,600 EUR
	Average return each year	-77.0%	-20.4%
Unfavourable	What you might get back after costs	7,620 EUR	9,110 EUR
	Average return each year	-23.8%	-1.2%
Moderate	What you might get back after costs	10,100 EUR	14,360 EUR
	Average return each year	1.0%	4.6%
Favourable	What you might get back after costs	13,370 EUR	17,820 EUR
	Average return each year	33.7%	7.5%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 12/2021 and 01/2024.

The moderate scenario occurred for an investment between 04/2014 and 05/2022.

The favourable scenario occurred for an investment between 06/2013 and 07/2021.

What happens if Generali Investments CEE is unable to pay out?

The assets in the Fund are separated from the assets of Generali Investments CEE and of any other funds in both legal and accounting terms. The reasons to dissolve the Fund are specified in the Fund's Prospectus. No obligations between you and the Fund or Generali Investments CEE are covered under a system of indemnifications or guarantees for investors and you might suffer a financial loss. If you believe that Generali Investments CEE acted in conflict with the applicable laws while purchasing investment shares or distributing shares, you may file a complaint. You may also turn to the CNB or exercise your rights by filing a complaint with the court of jurisdiction.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 8 years (RHP)
Total costs EUR	712 EUR	2,790 EUR
Annual cost impact (*)	7.1%	3.1% per year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.7% before costs and 4.6% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.0% of the amount you pay in when entering this investment. This is the most you will be charged. This includes distribution costs.	487 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.1% of the value of your investment per year. This is an estimate based on actual costs over the last year.	202 EUR
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	23 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 8 years

RHP is based on the underlying assets of the Fund. The securities of the product are purchased on every business day, being a business day in Ireland and in the Czech Republic, at current value determined by General Investments CEE in accordance with the applicable supplement to the Prospectus and no exit fees are charged. The actual risk might differ if you decide to terminate the investment before the recommended maturity and you might get back less.
