The financial statements are prepared in accordance with accounting standards generally accepted in Ireland and the provisions of the Companies Acts, 1963 to 2009 and the European Union (Undertaking for Collective Investment in Transferable Securities) Regulations, 2003 (as amended). NOTES TO THE FINANCIAL STATEMENTS

For the period from 10 March 2009 (date of incorporation) to 15 January 2010
(continued)

2. Principal accounting policies (continued)

Basis of accounting (continued)

The format and certain wordings of the financial statements have been adapted from those contained in the Companies (Amendment) Act 1986 and FRS 3 'Reporting Financial Performance' so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company's business as an investment fund.

The Company has availed of the exemption available to open-ended investment funds under FRS1 not to prepare a cash flow statement.

FRS 29 'Financial Instruments; Disclosures', requires further disclosure in relation to Financial Instruments in addition to that currently required under FRS 25. This includes enhanced disclosure regarding exposure to risks arising from Financial Instruments including a sensitivity analysis for each type of market risk.

The information required by Financial Reporting Standard No. 3 (Reporting Financial Performance) to be included in the Statement of Total Recognised Gains and Losses and a Reconciliation of Movement in Shareholders Funds is, in the opinion of the Directors, contained in the Statement of Comprehensive Income and the Statement of Changes in Net Assets Attributable to Equity Holders.

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through profit or loss and in accordance with the Companies Acts, 1963 to 2009.

Income

Interest income on cash held is accounted for on an accruals basis.

Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

Functional and presentation currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates ('the functional currency'). The functional and presentation currency for the Company is EUR.

Foreign currency translation

Assets and liabilities denominated in currencies other than functional currency as stated above are translated into the said functional currency at the closing rates of exchange at each period end. Transactions during the period, including purchases and sales of securities, income and expenses are translated at the rate of exchange prevailing on the date of the transaction. Foreign currency gains and losses on investment transactions and retranslation of closing investments are included in realised gains and losses on investments and net change in fair value of investments.

Cash and cash equivalents

As at 15 January 2010, cash and cash equivalents comprise issued share capital of €300,000 and interest accrued of €232 deposited with State Street Custodial Services (Ireland) Limited. This was transferred to RBC Dexia Investor Services Bank S.A. ("the Custodian"), on 19 January 2010. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investments or other purposes. Cash and other liquid assets will be valued at their face value with interest accrued, where applicable.

Classification of redeemable participating shares

The Company provides its shareholders with the right to redeem their interest in the Company at any dealing date for cash equal to their proportionate share of the net asset value of the Company. Under FRS 25, this right represents in substance a liability of the Company to shareholders.

NOTES TO THE FINANCIAL STATEMENTS

For the period from 10 March 2009 (date of incorporation) to 15 January 2010
(continued)

3. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of: (a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; and (b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

4. Share capital and redeemable participating shares

The authorised share capital of the Company is 500,000,000,000 shares of no par value and 300,000 redeemable non-participating shares of no par value. Non-participating shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the Company. The Directors have the power to allot shares in the capital of the Company on such terms and in such manner as they may think fit. The 300,000 redeemable non-participating shares currently in issue were taken by the subscribers to the Company and are held by the Distributor and a nominee of the Distributor.

The rights attaching to the shares issued in any class or Sub-Fund may, whether or not the Company is being wound up, be varied or abrogated with the consent in writing of the shareholders of three-quarters of the issued shares of that class or Sub-Fund, or with the sanction of an ordinary resolution passed at a general meeting of the shareholders of that class or Sub-Fund.

A resolution in writing signed by all the shareholders and holders of non-participating shares for the time being entitled to attend and vote on such resolution at a general meeting of the Company shall be as valid and effective for all purposes as if the resolution had been passed at a general meeting of the Company duly convened and held and if described as a special resolution shall be deemed to be a special resolution.

The rights attaching to the shares shall not be deemed to be varied by the creation, allotment or issue of any further shares ranking *pari passu* with shares already in issue.

There are no rights of pre-emption upon the issue of shares in the Company.

The following rules relating to voting rights apply:-

- (a) Fractions of Shares do not carry voting rights.
- (b) Every Shareholder or holder of non-participating shares present in person or by proxy who votes on a show of hands shall be entitled to one vote. Each Shareholder shall be entitled to one vote in respect of each Share held and every holder of non-participating shares shall be entitled to one vote in respect of all non-participating shares held.

Each of the established Sub-Funds has four classes of share namely Class A EUR, Class A HUF, Class A PLN and Class A RON.

NOTES TO THE FINANCIAL STATEMENTS

Applications for shares may be made through the Distributor for onward transmission to the Administrator on behalf of the Company or directly to the Administrator. Applications accepted received by the Administrator prior to the 4.00p.m (GMT) on any dealing day will be processed on that dealing day. Any applications received after 4.00p.m (GMT) on any dealing day will be processed on the following dealing day unless the Directors in their absolute discretion otherwise determine(s) to accept one or more applications received after the dealing deadline for processing on that dealing day provided that such application(s) have been received prior to the valuation point for the particular dealing day.

Shareholders may redeem their Shares on and with effect from any dealing day at the Net Asset Value per Share calculated on or with respect to the relevant dealing day in accordance with the procedures specified below (save during any period when the calculation of Net Asset Value is suspended) less any redemption charge that may be payable. If the redemption of part only of a shareholder's shareholding would leave the shareholder holding less than the Minimum Holding for the relevant Sub-Fund, the Company or its delegate may, if it thinks fit, redeem the whole of that shareholder's holding.

The Administrator shall also be entitled to be repaid out of the assets of the Company all of its reasonable out-of-pocket expenses incurred on behalf of the Company.
